DIARY NOTES

DD/S 

27 March 1965

25X1A9a

1.  advised me that General Carter signed the memorandum appointing George Miller the alternate DD/S&T member of the CIA Retirement Board. However, he expressed his dissatisfaction that the regulation itself has not been signed. He felt that we should ask Senator Stennis to sign off on the regulation if we can't get Senator Russell to do so. He asked me to arrange with Larry Houston to have this regulation finalized as soon as possible.

2. Hank Knoche advised me that General Carter signed the invitations to the Joint Chiefs of Staff and the Defense Intelligence Agency to another Project USEFUL. At the same time, he requested that we prepare a letter to Lieutenant General Joseph Carroll, Director of DIA, asking DIA to conduct a "Project USEFUL" for selected members of CIA.
